Setting up in France :

7 reasons to choose France

- **One of the most attractive countries** for foreign investors because of the R&D tax credit and other financial aid available
- **A strategic position** with a coastline that open onto the world
- **An ideal launching pad** with established links to African and South American countries
- **Global connectivity :** a hub for innovation and new technologies
- **Competitive start-up** and operating costs
- A highly-qualified **labor pool**
- **The quality of life**

SFC Group - a few facts

SFC Group's **250 employees** routinely serve the needs of almost **6,000 clients**. The Group has **11 sites in France and 1 in USA** (Miami) managed by a team of **26 partners**, all of whom are French chartered accountants.

Start-ups, VSBs, SMEs, SMIs, groups, foreign subsidiaries, self-employed professionals, farmers, wine producers, tradespeople, small retailers, associations, foundations and M&A participants in all sectors have trusted our Group with their business for 40 years.

It is our goal to be the trusted partner of company heads at the key stages in their professional and private lives.

The first step

Finding the right partners

The SFC Group and its international division has successfully assisted foreign companies successfully for 40 years :

- **as they set up in** France
- **with their international** expansion plans

Through our :

- **multilingual team dedicated to** assisting international groups
- **specialists trained** in the specific features of international business

The assignment...	...The goal
Help you to select the most appropriate legal structure	Design a bespoke structure suited to the specific needs of your international group
Point you towards the best tax options	Anticipate and avoid tax risks associated with international business activities
Provide advice on human resources and employment law	Enable your business to operate in a sound and risk-free work environment
Assist with the organisation of your business	Design appropriate internal control procedures
Advise on the introduction of specific management control systems	Put in place effective corporate oversight
Propose the best information processing systems	Optimise information flows
Offer suitable NTIC tools and web access	Manage and speed up remote information processing in a secure environment
Help you to optimise and secure your international group's financial flows	Provide you with access to a network of financial sector partners using innovative techniques

Membre de
l'alliance

Eurus groups together 42 independent accounting, audit and consultancy firms. Member firms share good practices and experience with the common aim of providing clients with high-quality, responsive and innovative services while remaining abreast of regulatory change.

B K R
INTERNATIONAL

Our membership of BKR International allows us to play a valuable role in our clients' international development plans. This association represents more than 160 accounting firms present in almost 80 countries worldwide.

ATH

The ATH technical association brings together audit firms focused on providing a quality service to their clients. Membership is a guarantee of a high level of services for members and their clients, through :

- Access to the latest research to constantly improve our techniques and refresh our information sources
- An annual quality control process to monitor the quality of our services
- Training courses for staff skill-building
